DTF FILM il nuovo supporto stampabile sviluppato da Plotterfilms.

DTF film the new developed printable media by Plotterfilms.

COATING: Matte/Matte

SHEETS: A3 (11,7" x 16,5")
 50 x 40cm (19,7" x 15,7")

ROLL SIZE: standard (h 30 cm x 100MT)
 standard (h 33 cm x 100MT)
 standard (h 45 cm x 100MT)
 standard (h 60 cm x 100MT)
 standard (h 120 cm x 100MT)
 taylor made (50cm x 100MT)
 taylor made (150cm x 100MT)
 lunghezza su richiesta/ length on request
 master rolls

Prodotto in Italia per stampanti Direct- To - Film.

Manufactured in Italy for Direct -To- Film printers.

APPLICAZIONE/APPLICATION:
 TEMPERATURA/TEMPERATURE: 140 °c + /-5°c
 TEMPO/TIME: 8 secondi/ 8 second
 RIMOZIONE SUPPORTO/REMOVE CARRIER: caldo/hot

MADE IN ITALY

Lato stampabile esterno.
Print side out.

Print side out.

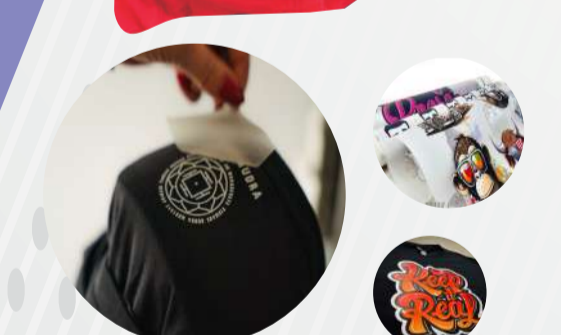

Dopo aver fissato la polvere termo/adesiva sarete pronti per l'applicazione a caldo.

After fixing the thermo/adhesive powder you will be ready for the hot applications.

After fixing the thermo/adhesive powder you will be ready for the hot applications.

Ottima stampabilità, lavorabilità e resistenza ai lavaggi, commisurata alla qualità degli inchiostri, delle polveri e della procedura di lavorazione.

*CONSIGLIAMO LA NOSTRA POLVERE POLIURETANICA

Excellent printability, workability and resistance to washing, commensurate baped on the quality of the inks, powders and the production process.

Termoadesivo in polvere con granulometria regolata tra 80/200 microns per garantire una copertura adeguata dell'inchiostro bianco. Termoadesivo poliuretano per garantire un'adesione perfetta a molte tipologie di tessuti.

Thermoadhesive powder with granulometry adjusted between 80/200 microns to ensure proper coverage of white ink. Polyurethane thermoadhesive suitable for many types of textile substrates.

*TEMPERATURA FORNO INDICATA SU DISPLAY :110 °c +/-5°c
 *TEMPERATURA REALE SU SUPPORTO :140 °c +/-5°c
